SOLUTION

DataPoint is your one stop integrated Payment and Ordering solution that enhances your operations while taking EMV, Contactless, and Mobile Wallet payments. DataPoint meets all your PCI compliance needs and takes your business out of scope. This solution allows you to manage your operations from your payment terminal in order to retrieve, update, tip, print, pay and close a receipt without having to run back to your POS terminal to do so.

Our fully functional ordering system is integrated into our payment process allowing you to use the same terminal for payments, creating new tickets, re-ordering items, and modifying entries.

DataPoint offers a more efficient service and compliant payments all while saving you money and keeping you away from risk.

SMART PAYMENTS

Take advantage of EMV chip cards, mobile wallets, and contactless payments. These types of transactions are less expensive than your current Swiped Card Sales. We process Debit Cards as Pin Debit so you can pay less for all of your transactions. This provides significant savings which was never available in a Table Service Environment, until now.

INTEGRATION

DataPoint is able to achieve integration due to its patented technology giving the ability for two separate environments to talk to each other. This middleware allows us to seamlessly connect your POS and PMS systems to our secure smart payment and ordering platform. We'll have you up and running in just a few hours.

CONNECTIVITY

DataPoint only operates on smart secured terminals. We have various terminals to choose from. DataPoint is processor agnostic allowing you to make decision that are right for your processing needs. DataPoint can connect via WiFi, Ethernet, 4G, and even mobile hotspot so you can offer payments anywhere you need to.

SIMPLE TO USE

Unlike any other payment solution, DataPoint is much more than just payments. Use the terminal for ordering or turn it into a complete revenue and compliant information gathering tool. This optimizes operations and enhances the overall customer experience.

ENHANCING POINT OF SALES WITH INTEGRATED SOLUTIONS

ABOUT US

SoftPoint is a cloud based technology company that produces software and services for the hospitality industry. SoftPoint has over 60 applications designed to help manage all aspects of your business.

- ✓ Integrated
- ✓ Patented
- ✓ Easy To Use
- ✓ Secure
- ✓ GDPR Ready
- ✓ Reliable
- ✓ WiFi + 4G
- ✓ P2PE
- ✓ EMV
- ✓ PCI

SERVICES

SoftPoint offers merchants a customer centric solution to streamline operations and enhance security.

SECURITY

Secure EMV chip card acceptance and level one PCI compliance.

EFFICIENCY

Real-Time updates, with integrated menus, employee IDs, and tickets.

RELIABILITY

24/7 U.S. based expert customer support and care.

CONVENIENCE

On-the-go payment acceptance with built-in ordering capability.

ADVANTAGES

The technology industry is continually evolving and improving but there is one industry that has remained unaltered by advancements... until now. Currently operated by outdated software, costly legacy systems, unsecure vulnerable environments, and disconnected platforms, the hospitality industry is poised for innovation. That innovation is the brainchild of SoftPoint.

Whether you're a restaurant or retailer, your business needs a seamless and centralized offering that arms you with tools that engage consumers and helps you run your business more efficiently. SoftPoint has created a suite of products that encompass all of the business functions needed in today's world within one simple platform so you can operate at the highest levels without being slowed down by outdated technology.
