SOLUTION

Nearly 90% of a restaurant's revenue is processed via credit card, which in many cases results in the insufficient cash on hand to properly tip out your employees. Traditional tip out procedures require timely spreadsheets, unkept receipt tracking, unsecured cash handling, and reconciliation nightmares.

It's time for a change...

SoftPoint's TipOut program allows your restaurant to incorporate a 100% cashless tip out procedure that's convenient, secure, and accurate by simply loading tipped income funds directly to an employee's paycard for immediate access. A Win Win for Everyone! Your employees will love the freedom TipOut provides and you'll love the reduced labor costs and increased security.

CASH MANAGEMENT

Cash handling is a major liability for restaurants and costly to manage, requiring armored truck transports or unsecured manager trips to bank. TipOut puts you back in control of your cash and provides a secure way to handle tip outs.

PAYROLL IMPORT

Restaurants spend countless hours managing spreadsheets and storing paper receipts. With SoftPoint, your payroll data including the tip out intel, imports seamlessly from your POS into your payroll platform.

COMPLIANCE

SoftPoint's intuitive TipOut program allows your staff to allocate tips with precision and ensures each employee claims 100% of their tipped income upon checkout.

EMPLOYEE BENEFIT

TipOut gives your employees freedom and security. They can now enjoy the benefits and convenience of online payments, shopping and money management instead of the vulnerabilities that come with carrying large sums of cash.
