

THE AIO HOSPITALITY'S FIRST ALL IN ONE SIMPLE TO USE

 **RESTAURANT**

 **RETAIL**

 **HOTEL AND MORE**

PAYMENT & POS TERMINAL

PROVEN SOFTWARE

Our AIO terminal already comes pre-installed with all the software you need to run your Restaurant, Hotel or Retail Store and more. As well you can run our complete suite of software products on any browser terminal.

PAYMENT PROCESSING

Using our patented technology AIO offers FAST EMV, AIO is capable of making any type of electronic payment. Our system uses advanced encryption to achieve the highest levels of Cyber security protection.

STATE OF THE ART HARDWARE

AIO uses smartphone technology but don't let it's small footprint foul you. AIO holds all the tools you'll need to dip, swipe or tab payments. You can also call, print, picture or scan while processing all your operations.

AIO ADVANTAGES

AIO is a sophisticated Handheld Android POS Terminal with everything required to process payments and run your business built into one, compact easy to use unit. Unlike other options in the marketplace, which provide payment process and software from different sources, SoftPoint has pioneered the first All-In-One device.

- ✓ Integrated
- ✓ Patented
- ✓ Easy To Use
- ✓ Secure
- ✓ Durable
- ✓ Reliable
- ✓ EMV
- ✓ PCI

With over 30 years of software experience, powering hundreds of thousands of locations across the globe, SoftPoint and AIO allow you to run your business easily and efficiently, securely processing payments under an EMV and PCI-Compliant platform.

AIO is a complete simple to use ordering and smart payment terminal that allows you to process all of your Table, Counter and or in the Field transaction while making secure EMV and PCI compliant payments.

FULL FEATURED POINT OF SALE

AIO is not just ordering and payment device. SoftPoint provides over 60 applications to run your entire business including attendance, business intelligence, inventory and purchasing functionality and everything you'll need.

ADDITIONAL APPLICATIONS

Don't let AIO's small size fool you. AIO is a powerful computer. AIO runs in the cloud and can also operate offline. AIO connects via WiFi, Ethernet & 4G. Our software is also accessible from any full-screen computer.
